Note to patient:

This referral is for a Direct Access Service, which means you will not require an initial consultation with the specialist Gastroenterologist. **You will be given intravenous sedation and as such you should not drive, operate machinery or sign important documents for 24 hours following your procedure. You must have a responsible adult to collect you from the Day Surgery Unit, accompany you home and stay with you the night following your procedure.** If polyps are removed at colonoscopy, you must not undertake domestic travel for 72 hours and international travel for 3 weeks. Patients need to return to their referring doctor for results and follow-up care unless otherwise indicated.
